

KOOLKAT

REFRIGERATED - BATTERY OPERATED 2KW

THE ULTIMATE POWERFUL REFRIGERATED ELECTRIC COOLER

- 12 VOLT & 24 VOLT

The Koolkat is designed for large sleeper cabs as it is a 2 kw unit. This unit comes with 2 x auxiliary batteries and a charger which will charge as the truck is driving. It works exceptionally well in all weather conditions, dry or humid.

What is the difference between Pure Air and Koolkat?

Pure air is a 1 kw unit (Designed for a small sleeper)

Koolkat is a 2 kw unit (Designed for a large sleeper)

PROS:

- Refrigerated – works well in all weather conditions
- Capacity much higher than Pure Air or other brand battery operated unit on the market
- Internal
- 2 kw
- Remote control
- Quiet to run
- Designed for larger cabs but will work very well in smaller sleeper cab
- 1 year warranty

CONS:

- Cannot use while driving
- Only comes in an internal style
